Located just one hour north of Toronto, one of Southern Ontario's premier resorts is a closely kept secret just waiting for you to discover. Introducing The Heights of Horseshoe Ski & Country Club, Canada's first equity-owned private-member ski and country club.

The Heights, which began in 1989, is located on 102 acres of land in beautiful Oro-Medonte Township and is home to 28 private runs ranging from green to double-black-diamond, which can be enjoyed all day long.

Rumour has it that the original owner of the property acquired it after doing extensive studies over a four-year period. He enlisted the help of hundreds of farmers across the province and had them measure and record the snow that fell, the dates and the duration of the time that the snow stayed on the ground. After this comprehensive study, he came to the conclusion that the best snow in Ontario was here, on the land upon which The Heights now stands.

The valley's picturesque settings and rolling hills determined its destiny, as the fabulous Alpine and Nordic site we have all come to love. Over the years, many people have enjoyed what Mother Nature has provided for us here at The Heights. The memories that have been shared and continue to be created within families speak for themselves, generation after generation.
